SUMMARY

Baranovichi Army Barracks East is located on the southeast edge of Baranovichi (53-08N 026-03E) immediately west of Baranovichi Railroad Yard East (Figure 1). The installation is served by a spur from the rail yard, a series of city streets, and an all-weather primary road which connects to the all-weather highway from Bobruysk to Brest. Other military installations located in the vicinity include Baranovichi Army Barracks SW (AL-1), and Baranovichi Army Barracks and Training Area Lesnaya (IA-1).

The installation covers approximately 700 acres and includes seven administration buildings, 49 barracks, 115 storage buildings, 51 support buildings, two equipment storage/maintenance buildings, and 25 vehicle sheds. Other

facilities include two athletic fields and two small arms ranges.

The area is covered by TALENT photography and KEYHOLE missions between

Comparative analysis revealed the same general level of usage between with reduced usage during the winter months. Significant changes since include the addition of 10 large vehicle storage/maintenance buildings, 52 general storage buildings, two new barracks and three new administrative buildings. buildings appear to have been constructed between Part of this installation may serve as a barracks and administrative area for Baranovichi Airfield.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from a single-track line extending from Baranovichi through Luninets passes through the southeast sector of the installation. A five-track rail yard borders the installation on the east side.

Road Service

An all-weather primary road connects the installation to the east-west all-weather primary highway extending from Bobruysk to Brest. The

urban location of the installation also gives it good access to city streets.

Administrative and Troop Housing Areas

Area D (Figure 3) contains six administration buildings, 49 barracks, and thirty support buildings. Since TALENT photography, two barracks, three administration and five support buildings have been added. Trackage throughout the area indicates the installation is probably occupied.
